

**U.S.A TECH**  
WATER FILTRATION

PROUDLY MADE IN THE U.S.A

USATECH PLUSCTO - CBC 978

Usatech Carbon Block's Pluscto filters are manufactured using activated coconut shell carbon to provide the highest level of chlorine taste and odor reduction.

When the application calls for it, the Pluscto filter is superior in acting as a sediment and activated carbon filter.

This filter provides exceptional performance.

Each block is wrapped with a polypropylene outer layer and netting to prevent premature clogging of the carbon block.

All materials and components are FDA-compliant, making them ideal for use in residential, food service and commercial drinking water applications.

### Features & Benefits

- The highest level of chlorine taste and odor reduction.
- Filtering of organic solvents - 5 micron.
- High adsorptive capacity 8000@1GPM.
- Activated coconut carbon for purer filtration.
- Ideal for both pre- and post-RO filtration.
- Rust silt and Sediment Reduction.
- Initial Pressure Drop (PSI) < 2 @ 1 GPM.

Part Number	Nominal Dimensions	Chlorine Capacity*	Initial Pressure Drop* (PSI)
CB2510CTO	2.5"x10"	>8000gals@1GPM	<5psi@1GPM
CB2520CTO	2.5"x20"	>16,000gals@2GPM	<5psi@2GPM
CB4510CTO	4.5"x10"	>16,000gals@3GPM	<6psi@3GPM
CB4520CTO	4.5"x20"	>32,000gals@6GPM	<8psi@6GPM

**Important Notice**

Performance claims are based on a complete system. The filter must be used in an approved system and operating according to the system’s specifications. Each application must be followed in order for the filter to perform properly.

**Warnings**

Usatech Carbon Block filters are to only be used with microbiologically safe water. The filter is not designed to kill or remove bacteria or viruses. All information is based on data believed to be reliable. This information is offered for verification and evaluation only and is not intended to be a warranty
